### Questions:

*Wendy Lethbridge: I bought shares in an early share offer. Not aware of the new share offer. Can it be more obvious e.g on the website?*

Tom: All members have been informed via newsletters a couple of times. Are in the process of updating the website (with support from Lancaster University).

*Michael Gibson (a director of Fuuse) – Fuuse app now allows users to rate it. CMS users can do this, which provides CMS with data on the user experience.*

*What is the appetite from CMS for taking over operation and maintenance of sites?*

Daniel: can see this is an opportunity, but we also have problems with maintaining chargepoints out of our area. Do have advantage as a CBS of being able to recruit local volunteers, eg. to reset chargepoints.

*Roger Cope: Lots of communications from CMS, but not always clear who they are targeted at (e.g investor members or chargepoint users)*

*Keith Hounsell: Would we be open to a joint venture with a chargepoint operator to provide operation and maintenance?*

Daniel: Happy to look at these opportunities.

#### 4. Presentation of the Accounts

Steven Agar presented the accounts.

Turnover has gone up from 44,471 to 171,377. This is in line with our expectations from when we did our last share offer in 2021. The number of chargepoints has increased but not by four times, so we are getting more use per chargepoint.

Our cost of sales is also increasing, partly a matter of increased cost of electricity, but also things like having to replace old chargers. Nonetheless we have made a gross profit. But administrative expenses are more than our gross profit. A lot of these are costs of setting up systems etc. But adding in 'other operating income' (grants and income from consultancy) means we have made a profit.

Creditors include grants received but not yet released to income and the amount we owe, for example for electricity at the year end.

Our focus is not just on revenue growth but on meeting the needs of our subscribers – the number of these has gone up.

*Wendy Lethbridge: would it be worth having chargers in car parks of housing for older people. Need to contact builders at the construction phase. Perhaps flag up in a newsletter?*

Stevan – Sites should be suggested through the websites, or email hello@chargemystreet.

*Roger Cope: what is the eligibility date for holding shares for three years to qualify for share interest?*

Anne to check and get back to Roger.

[This is set out in our secondary rules, which were agreed at last year's AGM:

Shares need to have been held for three years or more on the 30<sup>th</sup> September (the end of our financial year) to be paid share interest, which is accrued to share accounts following the AGM.]
